WATCHES and JEWELRY.

The subscriber desires to remind the public that at his store on Broad street may be found almost every article usually kept in a jewelry establishment. Having small store expenses he is enabled to sell at smaller profits than many of the city dealers. An inspection of prices will repay the little walk necessary to reach the store.

A gold watch as low as $20 and a silver one for $9, and other goods equally low.

William R. Pitman,

dec19 20 BROAD STREET.

GOSSAMER WATER-PROOF CAPE.

THE MANUFACTURERS claim for the above new style of cape the following:
That they are perfectly water-proof.
That, if worn in the rain twenty four hours, they will not absorb any moisture, while the old style will nearly double its weight, and not keep the wearer dry, either.
That, when rolled-up, they are only seven inches long, and three inches in diameter, and can be carried in the pocket, while the old style is as large and cumbersome as a woolen shawl.
That, being so light-weight, and having no warmth, they are welcomed by all ladies for warm-weather use, or to throw over a winter cloak in cold weather.
That they are not affected by either cold or heat, neither will they become soft and useless with warm damp weather.
That all who have used the Gossamer Capes have expressed themselves perfectly satisfied with them.
That a lady, who has a Gossamer in her pocket, can leave the troublesome umbrella at home, and if the rain comes before she reaches shelter, with the Cape thrown over her, and the Hood over the bonnet, she is far better protected than she could be with the umbrella.
For sale at manufacturers' prices.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 70 State St., opp. Kilby St., Boston.
AFTER AN EXTENSIVE PRACTICE of upwards of thirty years, continues to secure patents in the United States; also in Great Britain France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with despatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved Inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON, Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakeable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

T. W. FREEBORN,

Special Notices.

CONSUMPTIVES, TAKE NOTICE.

Every moment of delay makes your case more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cured.

Dr. Schenck will be at the Quincy House, Boston, on the following Wednesdays, from 9 to 3 o'clock: Jan. 13th and 27th, Feb. 10th and 24th, and March 10th and 24th. Consultation free; but for a thorough examination of the lungs, with the Respirometer, the price is $5.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Streets, Philadelphia, every Monday, where all letters of advice must be addressed.

Pratt's Astral Oil

Absolutely SAFE!

Perfectly Odorless!

ALWAYS UNIFORM. ILLUMINATING QUALITIES

SUPERIOR TO GAS.

Burns in any lamp without danger of exploding or taking fire.

Manufactured expressly to displace the use of highly volatile and dangerous oils.

ITS SAFETY under EVERY possible TEST, and its perfect burning qualities, are proved by its continued use in over

500,000 Families!

While no accident, directly or indirectly, has ever occurred from burning, storing, or handling it,

The many imitations and counterfeits of the Astral Oil that have been thrown unsuccessfully on the market is further

PROOF OF ITS SUPERIOR MERIT.

THE ASTRAL

Has now a world-wide reputation as the SAFEST and BEST. The

Insurance Companies and Fire Commissioners

THROUGHOUT THE COUNTRY

RECOMMEND PRATT'S ASTRAL OIL

As the Best Safeguard when Lamps are used.

THURSDAY, FEBRUARY 4, 1875.

WHAT THE CHIMNEY SANG.

Over the chimney the night-wind sang
And chanted a melody no one knew;
And the woman stopped as the babe she nursed,
And thought of the one she had long since lost,
And said, as her tear-drops back she forced,
"I hate the wind in the chimney."

Over the chimney the night-wind sang
And chanted a melody no one knew;
And the children said, as they closer drew,
"'Tis some witch that is cleaving the black night through—
'Tis a fairy trumpet that just then blew,
And we fear the wind in the chimney."

Over the chimney the night-wind sang,
And chanted a melody no one knew,
And the man, as he sat on his hearth below,
Said to himself, "It will surely snow,
And fuel is dear, and wages low,
And I'll stop the leak in the chimney."

Over the chimney the night-wind sang
And chanted a melody no one knew;
But the poet listened and smiled, for he
Was man, and woman, and child, all three,
And he said, "It is God's own harmony,
This wind that sings in the chimney."
—[BRET HARTE.

RECEIPTS.

THE CHILDREN'S PUDDING.—Quarter of a pound of suet, quarter of a pound of flour, quarter of a pound of currants, two ounces of sugar, two teaspoonfuls of molasses, juice and peel of one lemon, two tablespoonfuls of milk. Boil in mold three hours.

TO CLEAN METALS.—Mix half a pint of refined neatsfoot oil and half of a gill of spirits of turpentine, and scrape a little rottenstone; wet a woolen rag with the liquid, then touch it to the rottenstone, and rub the metal well. Wipe off with a soft cloth, and polish with dry leather.

POTATO CAKES.—Take mashed potatoes, flour, a little salt, and melted butter (to make them sweet, add a little powdered loaf sugar,) mix with just enough milk to make the paste stiff enough to roll, make it the size and thickness of a muffin, and bake quickly.

CUSTARD CAKE.—One cup of sugar, one egg and one-third of a cup of butter; put together and beat to a cream; then add one cup of sweet milk, two cups of flour, one teaspoonful of soda and two teaspoonfuls of cream of tartar. Bake in jelly tins. Custard for inside—one and one-half cups of milk, two eggs (reserving one white if frosting is desired) one tablespoonful of corn starch and one cup of sugar. Flavor to suit the taste.

TO CLEAN CLOTH GARMENTS.—Wet a sponge in warm water and squeeze it out till nearly dry; then sponge one place after the other until all the garment has been cleansed. All the dust and soil will be absorbed by the sponge. But if the garment is very much soiled, wash the sponge in clean water several times, squeezing it as dry as possible by wrapping it in a piece of black alpaca. This method of cleansing is more effectual than a hand brush. Many spots will disappear by the use of pure water.

SPICED GINGERBREAD.—One cup of sugar, one cup of butter, one cup of sour milk, one cup of molasses, four eggs, four cups of sifted flour, one tablespoonful of ginger, one tablespoonful of cinnamon, one lemon and two teaspoonfuls of soda. Beat the eggs thoroughly. Dissolve the soda in a small quantity of cold water. Grate the rind from the lemon and extract the juice. Rub the butter and sugar together. Add the eggs, soda, molasses, sour milk, ginger, cinnamon, rind and juice of the lemon and flour. Mix well together, and bake in buttered pans. This recipe makes two loaves.

OYSTER PIE.—Fifty oysters, two eggs, two teaspoonfuls of flour, quarter of a cup of butter, a little vinegar, chopped parsley, pepper, salt and nutmeg. Beat the eggs until they are light; drain the oysters from their liquor, put them in a stew pan and stir the flour into it perfectly smooth. To the butter add the beaten eggs, parsley, nutmeg, pepper, salt and vinegar. Mix well, and to this add the oysters. Let them simmer together for ten minutes, then put into the paste. Place in the oven immediately and bake.

AFTERNOON TEA CAKES.—Dry before the fire a quart of fine flour, and rub into it a quarter of a pound of butter; then, beating up a couple of eggs with two tablespoonfuls of yeast, pour the whole into the center of the flour, and keep mixing it well with a pint of warm new milk. Beat it up with the hand until it comes off without sticking, and set it, covered with a cloth, to rise before the fire. After it has remained about half an hour, make it up in round cakes about an inch thick; put them in a tin plate, set them before the fire to rise a little for ten minutes, and having baked them in a slow oven, butter them, and eat them hot.

HAM AND EGGS.—The association of eggs with ham is of such honored antiquity that it would be unwise to disturb it. Break eggs, then, one by one into a pan in which ham has been lightly and quickly browned—not dried up, and fry them a light brown on the under side; by this time they will have assumed a consistency on the top, and must be taken up carefully with a fish-stick or skimmer, without turning, and placed round the edge of the dish, the ham occupying the center.

OYSTER PATTIES IN BATTER.—Make a batter with the yolk of one egg or more, according to the quantity of oysters you intend to prepare, a little nutmeg, some beaten mace, a little flour and a little salt; dip in the oysters and fry them in lard to a nice brown. If preferred, a large parsley may be shred very fine and mixed with batter. The batter may also be made thicker, and formed into the shape of a patty, or put into a small tin mold, the oyster being dropped in and covered over, and the whole baked as a pudding would be.

HOW TO MAKE CIDER VINEGAR.—Take ten gallons apple juice, fresh from the press, and suffer it to ferment fully, which may be two weeks, or sooner if the weather is warm; and then add eight gallons like juice, new, for producing a second fermentation; in two weeks more add another like new quantity, for producing a third fermentation. The third fermentation is material. Now stop the bunghole with an empty bottle, with the neck downward, and expose it to the sun for some time. When the vinegar is come, draw off one-half into a vinegar cask, and set it in a cool place above ground, for use, when clear. With the other half in the first cask proceed to make more vinegar in the same way.

Thus one cask is to make in, the other to use from. When making the vinegar, let there be a moderate degree of heat, and free access of external air. The process is hastened by adding to the cider, when you have it, a quantity of the mother of vinegar, as it is called—a whitish, ropy congulum, of a mucilaginous appearance, which is found in the vinegar and acts as a ferment. The strength of vinegar depends on the amount of sugar or starchy matter to be ultimately converted into acetic acid. If you keep your cider long enough it will make vinegar without further trouble.

THE NEWPORT DAILY NEWS AND THE NEWPORT JOURNAL.

The NEWPORT DAILY NEWS is published every afternoon, except Sundays, at the News Building, 13 Church street by Davis & Pitman.

The NEWPORT JOURNAL is published at the same office every Thursday morning, and contains a selection of the best matter in the Daily, including Editorial Discussions of the topics of the week, Literary Miscellanies, and at least one good Story, the Latest Markets, and a complete and comprehensive Summary of the news, local and general. The JOURNAL is a large 36 column paper and contains 50 per cent. more reading matter than any other paper in the south part of the state.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The DAILY NEWS, $6 per annum, or 12 cents a week; ayable to carrier.

The NEWPORT JOURNAL, $2 per annum, in advance.

ADVERTISING RATES.

Ordinary Advertisements, $1 a square, for the first insertion, and 25 cents for each continuance: Ten lines or less, in this type, make a square. A discount on these rates is allowed on all advertisements ordered for one week or longer. Funeral Notices 50 cents each.

PRINTING.

Connected with THE NEWS is the largest general printing office in the city. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

Newport Daily News.

THURSDAY, FEBRUARY 4, 1875.

THE DAY.

At the monthly meeting of the Historic Genealogical Society at Boston yesterday, Dr. E. R. Humphreys, formerly of this city, read a paper on "Oxford and the Oxonians."

Tilton's third day on the witness stand was productive of some interesting statements. The direct examination was concluded without eliciting any new facts, but Mr. Evarts, in his cross-examination, procured from him a handsome tribute to the wifely qualities of Mrs. Tilton, and a synopsis of the views he entertained in theology.

How our great men are going, to be sure! Butler is gone, and Chandler is gone, and Matt Carpenter has just been laid out by the Wisconsin legislature, and, if we cared to be invidious, we might mention some gentlemen who don't feel very well themselves. Eighteen Republicans refused to support Carpenter under any circumstances and agreed to vote for any one of four men whom the Democrats preferred. The latter nominated Angus Cameron on a platform of hard money, a revenue tariff and the supremacy of the civil law in time of peace, and Mr. Cameron will succeed Senator Carpenter. The eighteen Republicans justified their action by appealing to their often-repeated protests against public corruption, with many phases of which it was Mr. Carpenter's misfortune to have been associated, to the resolutions of the last Republican state convention, which were an implied censure of that Senator, and to the history of the means used to force them and others to abandon their position.

Not only will the Republican party be in the minority in the House of Representatives after the fourth of March, but the administration will be greatly weakened in the Senate.

JUDGE DURFEE'S REQUEST.

The General Assembly received yesterday a singular communication;—one of the most singular communications that a modern legislative body ever received. It was from Chief Justice-elect Durfee, and was a request that the salary attached to the office to which he had been elected should be reduced $500, because it was unjust that the chief justice should have $1000 more than an associate justice. This is refreshing. It is bracing. It is rather too bracing an atmosphere for lungs accustomed to air heavy with the dampness and smoke and miasm of lobbies and grabs. It carries one back to the days of Haroun el Raschid, or of the Roman republic in its prime, or, at least, of the Continental Congress in which John Hancock and Samuel Adams and Patrick Henry never tried to put the bonds of a prospective railroad company where they would do the most good, and from which George Washington would accept no salary, but simply the reimbursement of his actual expenses. What adds to the singularity of Judge Durfee's communication is that he is so much in earnest about the matter that he has refrained from qualifying himself for the chief justiceship because the General Assembly can't reduce a judge's salary while he is in the office. Even in the golden age of the past the self sacrificing patriots who made our constitution did not anticipate that a judge would ever ask to have his salary reduced. And so Judge Durfee remains in the dead of Winter without the ermine that belongs to him that the General Assembly may have a chance to cut his pay down! In the pathetic words of A. Ward, "This is cruel!"

To speak seriously, Judge Durfee's request does him credit as a man and as a judge. He says the associate justices have almost precisely the same duties to perform that fall to the chief justice, and $500 is all the difference that should be made in the latter's favor in the matter of salary. Messrs. Woodbury, Miner and Rogers favored leveling up instead of leveling down, and proposed increasing the salaries of the associate justices. We believe this is the better way. All over the country judicial salaries are low when the talent and education and experience demanded of a judge are considered. The chief justice of Wisconsin resigned lately and returned to the bar, because the salary he had received was too small. Our own chief justiceship was declined last Summer on account of the smallness of the pay. It is true that an excellent man has now consented to take the place even with a reduction of the salary, but we don't want to let the judicial positions in this state to the lowest bidder, even if the lowest bidder happens to be a satisfactory man.

If the salaries of the associate justices are raised to $4500 they will not then be excessive. They will be lower than the incomes of leading practitioners at the bar, and lower than the salaries of members of Congress of whom no special preparation or fitness is required and who have more than half their time to devote to the management of private business.

TURKEYS AND CHICKENS.—A poultry raiser in West Amesbury reports as the result of his experience, that chickens are a much surer crop than turkeys, if not as profitable. Out of 45 turkeys hatched he was able to raise only 20, while out of 200 chickens hatched, he raised 188.

BOOK NOTICES.

SONGS OF JOY; a Collection of Hymns and Tunes, by J. H. Tenney. Boston, Lee and Shepard; Newport, Charles E. Hammett, Jr.

Mr. Tenney is already favorably known to the public through his "Anthem Offering," "Golden Sunbeams," and other musical collections. His name speaks for the excellence of the book before us, which is especially adapted to conference and praise meetings. It contains quite a variety of selections, new and old, many of them by Mr. Tenney himself. They are mostly good, though, if we have a fault to find, it is that among the new ones, particularly, there seems to be a sameness in the music, but perhaps that is unavoidable, when such quantities of this kind of music are being issued. "Songs of Joy" is the latest and one of the best of the kind.

So much for the inside. With regard to the outside we would suggest that a less gorgeous cover might be more appropriate, and make the owner feel less as if he were carrying a dime novel to church.

The price is 30 cents, or $25 per hundred.

THE NATIONAL EXPENSES.

A CHANGE FOR THE REPUBLICAN PARTY.—THE QUESTION OF INCOME AND OUTGO.—SHALL THE GOVERNMENT PAY ITS DEBTS OR ERECT BUILDINGS?

[From the Boston Herald.]

In the Presidential campaign of 1872 Mr. Boutwell proved evidently to his own satisfaction, that our government under Grant's administration in his first term was more economical than it was under any Democratic administration previous to the war. This in face of the fact that the ordinary expenditures, exclusive of the interest on the public debt and pensions, which were expenses entailed by the war, were three times as much as they had ever been before the war. It makes little difference whether Mr. Boutwell believed what he said or not. Figures can be made to do strange things, especially in Presidential campaigns; but no candid observer can fail to see that public expenditures are made now on a scale that would not have been ventured upon before the war. The Republican party is not altogether to blame for this. Any other party, in the same circumstances, would have been likely to fall into the same courses. The enormous expenditures of the war accustomed the whole people to large figures. The demoralization of the currency, and the ease with which what answered the purpose of money was turned out by the public printing press, caused us to think less of a dollar than we did when we knew what it was worth. Thousands of sudden fortunes made during the war also tended to private and public extravagance. It is easy to expand, but very hard to contract expenses. Congress today expends ten millions with as little consideration as it expended one before the war. Take the expenditures for public buildings as an example. From 1851 to 1855, inclusive, the average expenditure for public buildings was just about one million dollars a year. From 1856 to 1860, inclusive, it was about $2,200,000 a year, but in the last two years of Buchanan's administration it was below this average, on account of the hard times after the panic of 1857. In 1858 it was $1,871,312; in 1860, $850,138. Now turn to recent figures. We have had another panic, and hard times calling for the most rigid economy. The national finances are in a bad way, and Congress is about to increase taxation in order to meet expenses. But for the year which ended June 30, 1873, we find that the expenditures for public buildings were $6,433,568.55; and for the last fiscal year, which ended June 30, 1874, they were $8,517,415. The appropriations made for this purpose last year amounted to $8,366,525, which, together with the unexpected balance left over, put *fifteen million dollars* into the hands of the public architect for expenditure on public buildings this year. We could go on and give the items, showing the appropriation of money with as lavish a hand as though the treasury were overflowing, while the fact is that the country is burdened with a great debt, business is languishing, the revenue is failing and congress is called upon to increase the public burden of taxation. There is no need of any new taxes. It is in the power of Congress to cut down the ordinary expenditures of the government thirty or forty millions per year without impairing its efficiency, and this would be done if we had such views of public economy as all parties held before the war. Who doubts that a policy of real retrenchment, which would enable the treasury to meet its demands without additional taxation, would be the most popular thing that the Republican majority in Congress could do this session—the most convincing reason it could give for the continuance of the party in power?

THE SOUTHERN PROBLEM.—In One third place, this argument from the condition of the Southern States is at least as sharp at the haft as at the blade; in snatching it up so hastily the administrationists have cut their own fingers. They tell the people that the South is rebellious and anarchical, today; rather more so, if anything, than it was at the close of the war. The people listen to them in grim silence; but, if their answer were to take the frame of words—instead of the more effective one of ballots—it would run something like this: "We are plain farmers, mechanics and storekeepers; but when you take us for fools you are out of your reckoning. What you say about these Southerners isn't true; we have common sense, and we read the newspapers. That there is some truth in it—a good deal too much—we don't doubt. Whose fault is it that the South is discontented and disorderly and stained with bloodshed? The war closed, if we recollect rightly, some ten years ago. You gentlemen have been running the government during these ten years to suit yourselves. You undertook to pacify and reconstruct the South, and we gave you the contract for the job. You have had every chance. We have given you everything you have asked for. You told us in '68 that the election of Grant would do the business; we elected him. You told us in '72 that his re-election would certainly do the business; we re-elected him. Now, after ten years' trial, you confess that you haven't anything to show for your work; that the South is unpacified and turbulent as when you began. Very well; we will take you at your word. We will give the contract to the firm over the way. They may do better with it; they certainly can't do worse."—[Springfield Republican.

PROFIT OF WHEAT CULTURE.—In discussing the relative profits of wheat and corn culture, Mr. Dodge of the Department of Agriculture, says this of wheat: "The more thorough and impartial similar local investigations are made, doubtless the more positive and convincing will be the testimony, teaching, not that wheat culture is unprofitable and should everywhere be abandoned, but that feeding crops upon the farm, which cannot be done in exclusive wheat culture, is the only safe and ultimately profitable system to pursue, and a golden rule of agriculture."

LOCAL AFFAIRS.

—Barnabee tonight.

—Dr. George A. Hammett is convalescent.

—There was a slight snow squall this morning.

—The fog bell on the breakwater made itself heard last night in all parts of the city.

—The steamer E. A. Woodward put in here for a harbor this morning.

—At the bench last night the wild waves were saying a good many things in a very loud voice.

—The Central Baptist church will hold their services next Sunday in the new vestry instead of at the First Baptist church.

—Owing to the storm and fog the New York boat did not arrive at her dock this morning until 8 o'clock.

—Lieutenant Holland and Officer Albro are the oldest members of the police force, having served over eight years.

—A sailor on board a vessel in the harbor was taken to the Newport Hospital this morning because he had the scarlet fever.

—The train from Boston today was an hour late on account of a breakage to the snow plow. It was taken off at Dighton.

—Workmen are engaged in tearing down the buildings on the purchase of Mr. Asa T. Lawton, corner Farewell and Marlboro streets.

—Mr. C. L. Stanhope, Newport correspondent of the Providence Journal, is confined to his home on John street by sickness.

—Mr. Thalmann has disposed of his tailoring business to Mr. Joseph Unkelbach, his cutter, who has been with him for the past year.

—Mr. Benjamin T. Easton, Jr., who has been seriously ill with pneumonia for the past few days, is more comfortable today and it is the opinion of the attending physician that he will recover.

—The threatening weather yesterday afternoon caused a large fleet of vessels to put into this port for a harbor. Among the number there were about fifteen which are engaged in the Virginia oyster trade.

—Dr. Carpenter visits Newport as usual this day but on and after next week he will arrive on Wednesday evening and will receive patients from 8 to 9 P. M. and his hours on Thursday will be from 9 A. M. to 2. P. M.

—The three masted schooner, Saddie F. Callor, Capt. Webber, from Buenos Ayres, with a cargo of wool and hides for Boston, arrived here yesterday. She reports a very rough passage, but sustained no serious damage. She has on board six passengers, who are bound to Boston.

—The steamer Eolus went to Wickford this morning at her usual time, as the ice in Wickford harbor was thoroughly broken up yesterday by the tug boat, Reliance, of Providence. The last regular trip of the Eolus was made Tuesday, January 19. At two o'clock she had not returned.

—On the arrival of the 7:15 train last night a woman who was on board was arrested in obedience to a telegram from Fall River. She resisted, and the officers had a good deal of difficulty in getting her to the station house. The despatch assigned no reason for the arrest and Marshal Simmons has telegraphed to Fall River for instructions.

—The Fifth Artillery band will furnish the music for the grasshopper tea party at the Academy of Music Saturday evening. Mrs. Gen. Hunt has supplied flags, bunting, etc., for decorations. The stage will be lighted up with Chinese lanterns, and there will be a fine floral display. Contributions can be sent tomorrow from two till four o'clock. Tickets can be bought at the post-office, Redwood Library and the bookstores.

—Mr. William Pinniger who was appointed inspector of kerosene by the city council at the last meeting has hitherto been appointed by the governor and Tuesday night was the first time the council ever made an appointment for that office. Could the inspector have the privilege of testing the oil that our dealers buy in Providence, where seven-eighths of it is bought, he would make about $250 a year. The inspector at Providence, however, tests the oil before it leaves that city and our inspector is obliged to content himself with making an average of $100 a year on what oil our dealers buy in New York or Boston.

A QUIET TRANSFER.—Some months ago a young mechanic in this city found himself his employer's creditor for wages that had been unpaid for some time. He was not successful in his efforts to get the currency that was acknowledged to be his due, but persistent dunning on the part of his journeyman provoked the employer into declaring in the presence of third parties that if he didn't settle the claim in full before a certain day named he would give his creditor his shop and its contents. Nothing further was said about the uncollected balance, but when the day named arrived the rash employer went to his shop and failed to get in. The lock had been changed. The young man took his employer at his word and the latter surrendered unconditionally and made no resistance. Business goes on at the old stand, but there has been a change in the proprietorship. The change was made so quietly that but few people are aware of its existance.

THE PHILHARMONIC CLUB.—The Philharmonic club of Boston will give a grand concert at the Opera House one week from tonight under the auspices of the lecture association. The Boston Globe says of the club:—

The combination of talent which the club exhibits is certainly far ahead of anything Boston has ever seen, each member being a solo performer, and some of them showing their ability at last night's concert of playing two or three instruments. The programme was opened with Beethoven's quartet in C minor, op. 18, No. 4, played by the Messrs. Listemann, Mr. Graham and Mr. Hartdegen. It was a most vivid portrayal of what might be almost called a tone poem. The rich alternations in the first movement where each instrument is at different times giving out the air, the fugal style of the second movement, the sprightly minuet and the delicate and vigorous finale, all combine to make it one of the most intensely interesting of such writings extant. But the meaning of the master-mind might have suffered in inferior hands, while as rendered by the quartet of last evening it was a delicate thought, now shaded with deep musings, now buoyantly leaping with a gayety born of itself. A more perfect conception or more thoroughly finished interpretation it has never been our fortune to hear.

THE BARNABEE CONCERT.—The Barnabee concert to be given tonight undoubtedly will, as it ought to, draw a large house. Several of the performers are very well known here, and all have won favorable opinions wherever they have appeared. The following is the programme for tonight:—

1. TRIO—"Fermis Cenildo," (Ernani).....Verdi
Mrs. SMITH, Mr. WINCH, Mr. BARNABEE.
2. VIOLIN SOLO—"Fantasie," from Puritani
.....Eichberg
Miss BELL.
3. DUETT—"I Know a Maiden,".....Balfe
Mr. FINCH, Mr. BARNABEE.
4. CAVATINA—"Ernani Involami,".....Verdi
Mrs. SMITH.
5. QUARTETTES { a "Now the Day is over,"
{ b "I love the Spring-time,"
.....Barnby
.....Young
Mrs. SMITH, Miss CLARK, Mr. WINCH, Mr. BARNABEE.
6. SONG—"In Days of Old,".....Hatton
Mr. BARNABEE.
7. DUETT—"Night in Venice,".....Arditi
8. VIOLIN SOLO—"Air et Varie,".....Alard
Miss BELL.
9. SONG—"Maid of Athens,".....Allen
Mr. WINCH.
10. QUARTETTE—"Il Carnovale,".....Rossini
Mrs. SMITH, Miss CLARK, Mr. WINCH, Mr. BARNABEE.
11. SONG—"Fly Forth, O Gentle Dove,".....Pinsuti
Mrs. SMITH.
12. SONG—"Blue Beard,".....Parry
Mr. BARNABEE.
13. LAUGHING TRIO—"Vadasi via di qua,"
.....Martini
Mrs. SMITH, Mr. WINCH, Mr. BARNABEE.

THE LOUISIANA LEGISLATURE.

LAW-MAKERS WHO CAN'T READ PRINT.—A FILTHY LEGISLATIVE HALL.—A SCENE OF CONFUSION.—A PURE BLOODED AFRICAN TAUNTS A "YELLOW MOKE" ON HIS "UNSURE PARENTAGE."

[Correspondence of the New York Times.]

A majority of the members of the legislature now in session in New Orleans are even more ignorant than the men who call themselves representatives of the people in the two states mentioned [South Carolina and Mississippi.] This is particularly true of the lower house. It is no exaggeration to state that half the members of that body are unable to read print. Nearly all of them are negroes who a few years ago were laborers on rice and sugar plantations. The few white men in the assembly are not much better qualified for their positions than are their black associates. Yesterday I visited the state house. * * * I had some little difficulty in passing through the crowd that blocked up the principal of these entrances, and after having done so, found myself in the midst of a mass of pushing, wrangling negroes; they were of all ages and colors, many of them being fieldhands who had come to town, as they stated; "to see dat legislature show." A country negro never comes into the city without bringing something to eat and drink with him. The man who occupied the lobby of the Louisiana legislature were no exception to the general rule. They were all well supplied with bacon and corn-bread, and a few had brought well-filled whiskey bottles with them. The dirty floor of the hall was strewn with the ends of half-smoked cigars, mouldy bits of meat, and a bone or two. All light and air were excluded by the huge plank barricading the windows. One sickly gas jet was burning, but only tended to heighten the gloom. This did not seem to dampen the spirits of the crowd, however. They laughed and joked with that loud merriment which is peculiar to them, and seemed to be the happiest people in the world. Frequent allusion was made to Gen. Sheridan, one very black man, who was evidently a person of importance, declaring to a group of admiring listeners that "since the 'rival of dat gemman all fear for the culled race not havin' of der rights was at an end."

With great difficulty I forced my way through this wrangling, shouting assembly, and reaching the stairway, ascended to the ante-room of the representatives' chamber. Like the hall below, this was filled by negroes. They were evidently of the better class, however, many of them being office-holders and professional politicians. Here and there a white Republican was to be seen excitedly explaining some political measure to a number of negroes, who listened with great attention but evident perplexity. The door of the assembly chamber was carefully guarded by four negro officials. Approaching them, I asked politely if I might pass into the hall. "No, sah," answered one of the men in an exceedingly impertinent way. "The chamber is already full, and spectators don't do nuffin but disturb the proceedings." At this moment the state auditor approached the door, and at his request the doorkeeper allowed me to pass. Entering the room, I found the members engaged in a loud and exciting debate. The space set apart for spectators was filled with negroes, who gazed with open mouthed wonder upon the proceedings of those within the circle, and it was only after ten minutes' diligent pushing that I succeeded in securing a position from which it was possible to see as well as hear. It is almost impossible to describe the scene which was then presented to me. Six or seven black men were on the floor shouting like maniacs; a number of others were in their seats crying, "Order, da," and "Miss Speaker," at the top of their voices. In the chair a young white man was seated. He presented a very remarkable appearance. His clothes were much too small for him, and had cracked in two or three places. Through these holes a soiled shirt appeared, and in the bosom of this garment a valuable diamond pin was placed. The young man wore a very dirty shirt-collar and a flaming red neck-tie. This was the speaker *pro tem.* of the Louisiana legislature. Above the din created by the members on the floor of the house could be heard a squeaky voice issuing from this young man and commanding "order."

The confusion and noise were increased by the gavel, with which he rapped loudly and continually. His commands were of no avail, however; the representatives of the people would not be silenced. At first it was, of course, impossible to discover what question was being so excitedly discussed, but after a time I became aware that the debate was upon the adoption of a report of the committee on elections, giving seats to two Republicans who claimed to have been elected, but who had not been returned by the board of canvassers. On this a white leader of the house had moved the previous question, and a number of negroes, who stated that they were sure the claimants had not been elected, rose and refused to vote unless debate was allowed. When it is remembered that on account of the withdrawal of the Conservatives there are only fifty six members, or just a quorum, in the house, it will be seen that no business could be touched if one member refused to vote. Knowing this and evidently wishing to have the report of the committee adopted at once, the white leader referred to moved that those who refused to vote be called before the bar of the house for contempt. Upon this the wildest disorder ensued. Twenty men started to their feet and commenced speaking at the same moment. Above the general confusion could be heard shouts of "You lie, you nigger you" "Dat's not parlimentary, sah." "You's a violatin' of the constitution, sah." The last remark was made by a young and handsome mulatto. He had no sooner uttered it than a very black man turned upon him and exclaimed with an air of the utmost contempt, "What you knows about the constitution, you yellow moke you? You pusson of unsure parentage, you shut your fool mouf." This caused a loud laugh among the negro spectators, and was greeted with such exclamations as "Golly, but dat nig is some." "He's the man for talkin'," "You bet," and "To be sure, honey."

THE ST. LOUIS SYSTEM.—The abolition of the system of licensing prostitution in St. Louis is reported to have brought about anything but beneficial results there. The repeal of this law was attributable to the high moral pressure brought to bear when Hammond, the revivalist, last Winter had worked the religious people of the city into an almost pious frenzy. They warred on the law, demanding its repeal without offering anything in place of it. The legislature yielded to the pressure, repealed the law, and, going to the opposite extreme, removed the women from all police surveillance, even making punishable the entrance of their houses by policemen without a warrant. The vice, restricted before to certain localities and streets, left its bounds within a week, and today there are said to be assignation houses in every part of the city. When the system went out of operation the registration roll contained the names of 700 women. The present chief of police states that there are now between 1700 and 1800 women openly and notoriously on the town. Twelve months ago, a girl going into a public or lodging building after dark was obliged to run extreme risk of arrest from the police; now no attention is paid to them whatever. Very noticeable is the difference in the number of assignation houses. From less than twenty they have increased to 300. The medical fraternity of the city bear witness to the same effect. It is even more significant that while, one year ago, the St. Louis newspapers contained the advertisement of but a single "specialist," today they have a dozen.

PHOSPHOR BRONZE.—The remarkable qualities possessed by phosphor bronze entitle it to more than passing notice. If all be true that is reported concerning it, an addition of extraordinary value has been made to engineering material. But little has been said of it publicly until its practical value was thoroughly established, and all that we know of its proportions as an alloy is the fact of the addition of a certain quantity of phosphorus to bronze metal in the crucible. The percentage of phosphorus, and how it is added and thoroughly incorporated are not described, but the results, so far as known, of critical tests of its durability are highly encouraging. Unlike brass, or other bronzes of ordinary composition, it is capable of being drawn out under the hammer, but singularly enough this treatment, which would seem to increase its toughness, does not leave it as satisfactory in this respect as the crude metal unforged. Forging increases the torsional resistance of phosphor bronze to a marked degree, and renders it a formidable rival to steel in this respect, as will be seen from the subjoined statement, which is a record of experiments recently set up to test this point. Succinctly, and leaving out the process by which the results were arrived at, a bar of Krupp's axle steel resisted 1,253,050 bends from right to left, at a strain of twelve tons, while a bar of phosphor bronze resisted 7,500,000 bends at a strain of eighteen and a half tons, and is not yet broken. A second bar of phosphor bronze, smaller than the steel bar, resisted over 2,000,000 bends without rupture. The metal is very rich in color, close in grain, and bears out all that has been said of it.

BUSINESS NOTICES.

WONDERFUL SUCCESS.

Three years ago Dr. Boschee's German Syrup was introduced in the United States from Germany for the cure of coughs, severe colds settled on the breast, consumption and other diseases of the throat and lungs. No medicine ever had such a success. 300,000 sample bottles have been distributed every year for three years by druggists in all parts of the United States, and nearly 1000 letters from druggists are now on our files, saying that no other preparation in their stores sells as well and gives such excellent satisfaction. All we ask is for you to go to your druggist, Jas. H. Taylor, and get a sample bottle for 10 cents and try it. Regular size 75 cents.

☞Just received another lot of those nice sleigh and clipper sleds, which are selling rapidly for 99 cts each; also a large lot of clothes horses 99 cts each. Coal hods, stove poker, lifter and shovel all for 99 cts. Remember Cottrell's block, 2nd door south of post office.

DIED.

REDDING.—In Jamestown, 2nd inst., Charles F. Redding, son of Theodore and Mellisa Redding of Woonsocket, R. I., age 3 months and 17 days.
Funeral will take place from the Baptist Church, Jamestown, at 1 o'clock, Friday.

GILLIES' CRESTED COFFEE.

ALWAYS USE "GILLIES' CRESTED COFFEE," Java quality. It will suit you. Grocers sell it. jan30-eod-n&j

CHAPPED HANDS are sometimes very painful, and always troublesome. Constant use of "Constantine's Pine Tar Soap" cures them up. All Druggists keep this soap. Send three-cent stamp for Almanac to Wright Gillies & Bro., New York. dec24-eod-2w-n&j

SORE HEADS.—Many children are afflicted with sore heads. The blood gets impure and disease results. Sore Heads can be cured by the use of Constantine's Pine Tar Soap. It begins its work just where the disease originated—in the porous system. It opens, cleanses and infuses strength through the porous system. Druggists sell it. jan28-eod-n&j

The strengthening and supporting influence of Hunt's Remedy acts promptly on the kidneys, bladder and prostrate gland, and banishes disease from them. It also eradicates gravel, diabetes, dropsy, complaints of the urino-genital organs and fortifies the whole system. It is a diuretic, solvent, alterative and tonic. This potent medicine has the sanction of the medical faculty. jan30-1w

FOR PILES nothing is better than a free use externally and by injections, of "Constantine's Pine Tar Soap." Piles are driven away by it. The medicinal properties of the Tar act like a charm in this disease. Send three cent stamp for Almanac to Wright Gillies & Bro., New York. jan14-2w

To the Afflicted. No matter under what form of sickness you labor, there is one great truth you should keep in mind: All disease originates in an impure condition of the blood. Purify that, and the disease must depart; but you cannot purify the blood by the use of poisonous drugs, and calomel is a stimulants. The best Blood Purifier ever discovered is Dr. WALKER'S famous VINEGAR BITTERS, compounded of simple herbs. feb3-1w

☞Milk of Magnesia is something entirely new. It is employed in all cases where Magnesia is beneficial, and being rendered free from the deleterious tendencies of calcined and other magnesias is far preferable, and is very valuable in infancy, as from its agreeable taste and milk-like smoothness, children will take it when they cannot be induced to take anything else. Caswell, Hazard & Co., Agents jan28-1m

☞Young men, if you have been eating or drinking to excess, do not use Seltzer Water, but take Milk of Magnesia, which is much more effective. Indigestion, sick head ache, and vomiting food, positively cured by Milk of Magnesia. Caswell, Hazard & Co., Agents. jan28-1m

☞To mothers—for infants and children, to prevent food turning sour on the stomach use Milk of Magnesia; it cures dysentery and diarrhea, invigorates the stomach and bowels, and corrects acidity. Physicians recommend and prescribe it. Caswell, Hazard & Co., Agents. jan28-1m

An Invaluable Travelling Companion.

Change of climate, water or diet is apt to induce bowel complaint, and often dangerous diseases. The three that are combined are fatal to thousands of emigrants every year. Is it not, then, of the last importance to know that Hostetter's Stomach Bitters are an absolute preventive of the hurtful consequences arising from these causes? Travelers, voyagers, and emigrants to new countries cannot be too often reminded of the fact that this agreeable vegetable tonic is the most reliable safeguard against disorders to which they are far more liable than the habitual denizens of healthy regions. The primal effect of the malarious atmosphere which produces what are called malarious fevers, is to depress and debilitate the system. The body then becomes an easy prey to the malignant principle in the air. It is manifest, therefore, that the surest way to avoid all epidemic and endemic maladies of an intermittent type, is to counteract the weakening tendencies of miasma by artificial invigoration. That Hostetter's Stomach Bitters is the surest resuscitant of flagging vigor, is a fact which is best appreciated wherever influences inimical to health exist. But it is not alone against malaria that they protect the system. They so toughen it as to enable it to endure with impunity extremes of heat and cold to which travellers are often subjected, and they neutralize those elements in unaccustomed water or diet which would otherwise beget disorders of the stomach and bowels. The brackish water with which voyagers by sea are often compelled to quench their thirst, is apt to provoke dysentery and other serious complaints, but when the Bitters are mixed with it, it becomes harmless. Truly this great protective invigorant is an invaluable travelling companion.

feb8-1w

January, 1875.

As near January 1st as is practicable, all bills due the undersigned will be presented for payment. He hopes that none of these bills when received are to be neatly filed and docketed and then put in some safe place for future action, but rather that they be treated as many of his customers treat them, as things to be paid at once and then to have done with them forever. If any of these bills reach people who cannot pay them let them come and state the case and have an understanding about the matter, not leave it to grow into sullen sores and festers; let them remember that credit was asked as a favor and should be treated as a favor granted, and that there is no occasion to whine when a fair open statement will be received in a liberal spirit.

Newport Daily News.

THURSDAY, FEBRUARY 4, 1875.

GENERAL NEWS.

FROM WASHINGTON.

Taxation of Petroleum.

WASHINGTON, Feb. 3, 1875.

A proposition to tax petroleum is gaining favor, as it can be easily collected and will yield a large revenue. The necessity for repaying the tax on what petroleum would be exported, is the great objection, as it is generally believed that there are great frauds in the repayment of the drawbacks on liquor.

The Telegraph Bill to be Reported Favorably.

The House judiciary committee this morning agreed to report favorably the important bill introduced by Gen. Butler regulating the telegraph. The bill makes every telegraph line in the United States a post road. The bill places the telegraph under immediate supervision of the government as regards rates, and compels all companies to pro-rate.

The Civil Rights Bill Up.

At two o'clock all special orders were postponed in the House, and the civil rights bill came up for discussion. Gen. Butler gave notice that he would admit amendments covering the general features of the opposition to the bill.

The Sinking Fund.

The committee on ways and means, it is said, have discovered that the additional thirty millions desired by the Secretary of the Treasury is chiefly wanted for the sinking fund. The point is made against this request that the aggregate amount expended on account is already three hundred millions more than the requirements of the law.

Rejection of the Canadian Reciprocity Treaty.

The Senate in executive session this afternoon had before them the reciprocity treaty between the United States and Canada. There was some expression of views, but the treaty, having but few if any friends, was rejected without a division.

Concerning the Alabama Claims Commissioners.

Mr. Edmunds introduced a bill in the Senate today, which was referred to the judiciary committee, amendatory of the act creating the court of commissioners of Alabama claims, providing that the time allowed for filing claims, except claims of wages of officers and seamen, be extended sixty days from and after the passage of this act, allowing officers and seamen to file their claims within one year, extending the time of the court from the twenty-second day of July, 1875, and authorizing the President at the end of the said twelve months still further to extend the duration of the said court another additional twelve months.

Jay Cooke's Bank Teller Tells all he Knows of Schumaker's Checks.

The Pacific Mail investigation was resumed for a short time today. W. M. Fenney recognized certain papers that had passed through Jay Cooke's bank in 1872, when he was chief clerk of that house, as checks of Schumaker, but said that independent of the books he would not be able to trace their connection. No other witness was examined. Mr. Dawes intimated that Fenney's further evidence might be taken by the sub-committee, and Irwin's cross-examination by Clark Bell will probably not be continued before Monday, as the committee were under the necessity of giving some attention to tax and tariff matters.

FROM NEW YORK.

Tilton's Evidence to be Long.

New York, Feb. 3.

The direct examination of Mr. Tilton as a witness in the trial of Beecher still continues, with a prospect of being nearly as long as that of Moulton. Tilton's evidence thus far has only covered an important interview with Beecher, the Woodhull branch of the subject, and Tilton's withdrawal from Plymouth church. His answers are for the most part long, explicit and circumstantial, and therefore it requires much time for him to get over a little ground.

The Mutilated Bank Bills.

The comptroller of the currency at Washington is certain that the fragments of bills of the Spraker National Bank of Canajoharie could not have been obtained from his office. The rules of the office require that all notes sent for destruction shall be canceled before they are received, and it is supposed that the National Sparker Bank cut out the signatures in conformity with these regulations and subsquently sold the fragments with other waste paper.

Heavy Receipts at the Custom House.

Yesterday's customs receipts were the largest of any single day for years; they amounted to $1,150,000. This is in anticipation of the President's signing the "little tariff bill," the merchants being anxious to withdraw their goods now in bond before the increased duties go into effect.

Higher Figures for Gold.

It is stated that gold will reach 120 before it stops. There are several reasons for this. First, the Treasury balances are unusually low; second, the premium offered by the German government with the design to draw the bulk of gold of the world to its coffers, making it profitable to ship gold to Europe, and the consequence is that the recent shipments have been very great. The profit in every $100,000 is said to be $300 net; third, the merchants are using large amounts of gold to pay duties on goods in bond, in anticipation of the President's signature to the "little tariff bill;" and, lastly, speculators taking advantage of these circumstances are buying up cash gold with a view to a corner and the heavy consequent profits.

The Kidnapped Spaniard.

The steamer City of Vera Cruz, in which Fernando Garcia was taken to Havana, returned to this city yesterday. Some of the officers of the vessel confirm the story of his being kidnapped. He thought he was going to Liverpool, but when he learned that Cuba was his destination he tore his hair and raved in Spanish. Detective Davies gave him $50 in gold and plied him freely with liquor to keep him quiet. The chief of police of Havana and the secretary of the captain general of Cuba were at the wharf when Garcia landed in Havana. Captain Deaker, the commander of the City of Vera Cruz, stood at the head of the gang-plank as the passengers went ashore, but the prisoner was too badly frightened to ask for his intervention. Henry C. Hall, the American consul general in Havana, inquired into the case under telegraphic instructions from Washington, but what he said to the Cuban authorities is still a state mystery. One of the officers of the City of Vera Cruz thinks that the rumor of the release of Garcia is false.

MISCELLANEOUS.

Serious Accident on the Syracuse and Northern Railroad.

WATERTOWN, N. Y., Feb. 3.

The train of this morning bound from Syracuse to Fundy Creek, on the Syracuse and Northern Railroad, was run into by an engine going south. Both train and engine were at full speed. The engine going south had thirteen men on board, nearly all of whom were more or less injured, though none seriously. One passenger on the train was slightly hurt. Both engines were completely demolished.

A Strike Ended.

LYNN, Mass., Feb. 3.

A meeting of the female lasters employed at the shoe manufactory of Jerome Ingalls on Union street, who left their work rooms on Monday morning, because their employer had informed them that their wages were to be reduced, was held this morning at a house on Monroe street. Between forty and fifty of the girls were present, information being given them through their late foreman that their employer wished them to return at the old wages, and assuring them that no reduction would be made. The girls voted to assume work, and immediately marched to the manufactory on Union street, and went to work as usual.

GENERAL ASSEMBLY.

ADJOURNED SESSION AT PROVIDENCE.

WEDNESDAY, Feb 3.

Senate.

The senate met at 11 o'clock A. M., as per adjournment, the lieutenant governor in the chair.

Mr. Turner, of Bristol, from the judiciary committee reported favorably upon the bill for an act in amendment of and in addition to chapter 245 of the public laws "of salaries," providing that the sheriffs of Washington, Kent and Bristol counties shall receive an annual salary of $400 each, in addition to their regular fees.

Mr. Hopkins, of West Greenwich, said he could see no reason why these additional salaries should be established. There are always plenty of respectable applicants for these offices, he said, and seeing no reason why the bill should pass, he moved that it be laid upon the table.

Mr. Turner said that he should not press the bill, if there is serious opposition to it, or if it is against the interests of the state, to pass it. He had no particular interest in the bill, but he thought that by its passage better officers would be secured.

First-class men could afford to step in and take the office of sheriff if there was a salary attached to it, whereas if there is no salary they will not feel inclined to accept the office. We should have first-class men, for the office of sheriff calls for such, it being an office of great responsibility. Mr. Turner believed the passage of the bill would be a good thing for the state, but at the same time would like to hear discussion upon the subject; it might lead him to change his mind.

Mr. Powel, of Newport, hoped the bill would be allowed to lay upon the table a while, as he did not believe in hasty legislation in changing the usages of the state. He did not think he should oppose the bill, however, when the time for action upon it came, unless he saw that a majority of the people of the state are opposed to it.

The bill was then laid upon the table for the present by general consent.

House resolution providing for the appointment of a commissioner to inquire into the condition of the reservoirs throughout the state, was received.

The resolution was referred to the committee on the judiciary.

House resolution providing for the appropriation of $150,000 for the use of the commissioners to build a new state prison was referred to the committee on finance.

Petition of George Manchester, sheriff of Newport county, for an appropriation for the purpose of rendering two cells in the county jail at Newport serviceable (from the house) was also referred to the committee on finance.

On motion of Mr. Cross, of Westerly, the senate adjourned to Thursday.

House of Representatives.

The house met this morning as per adjournment, Mr. Speaker Freeman in the chair.

Mr. Day, of Providence, in accordance with previous notice, introduced an act exempting cities and towns from attachment under the provisions of chapter 196, title XXVI, of the general statutes "of the service of writs." Read, passed to a second reading, and referred to the committee on the judiciary.

Mr. Clarke, of Cumberland, gave notice of his intention to introduce an act repealing chapter 328 of the public laws—the act requiring town clerks to be elected for three years.

The report of the committee on executive communications on the governor's annual message was received and accepted in concurrence, and the senate resolution appointing a joint special committee for the consideration of so much of the governor's message as relates to hours of factory labor was received, read and passed in concurrence.

Senate resolution continuing to the next session of the General Assembly all business of a private nature presented for action after the 26th inst., was received, and on motion of Mr. Miner was laid upon the table.

Mr. Stevens, from the committee on engrossed bills, reported as correctly and truly engrossed the act in addition to chapter 141, title XIX of the general statutes, "of the returns of banks and institutions for savings," and the act was passed finally.

The house then adjourned till tomorrow at 11 o'clock.

LOVE BEFORE SIGHT.—The Pall Mall Gazette has a report of a somewhat remarkable breach of promise suit, in which a woman of 29 years of age, in comparatively humble circumstances, sued for damages a gunner of fifteen years' service in the royal artillery whom she had never seen. She had heard of him, however, and had seen his photograph. The Berlin correspondent of the Figare told, recently, how Count Moltke gained unconsciously the heart of the lady who afterwards became his wife by the letters he wrote from Egypt to a relation of hers, who was also a relation of his own. The gunner does not appear to have cultivated the art of letter-writing. But he had a wife who spoke for him more eloquently, perhaps, than he himself could have done; and when the wife died her cousin, who had nursed her last illness, and who had been assured by her that the gunner was "a good sort of man" and of saving habits, entered into a correspondence with him, of which the result was, first, a promise, and afterward an action for breach of promise. The gunner wrote to say that he had done the plaintiff no harm. The plaintiff, however, had arranged her affairs with a view to marriage; and, in consideration of that fact, the jury awarded her $5 damages, the judge directing that each side should pay its own costs. The foreman of the jury humorously remarked that, though he had often heard of "love at first sight," this was the only case he had met with of "love before sight."

If you are going to paint your house, or buildings connected therewith, be sure and procure the Nonpareil Paint, whether for Wood, Tin or Iron Work.
There is no Superior Paint known, as it has stood the test with all colors made from the best qualities of leads.
Buildings to which it has been applied, neither crack, peel nor blister, owing to its elasticity and adhesiveness-properties required in order to be durable, and wear well.
Buildings to which it is applied do not require painting so often as if lead had been used.
The above Paint in all colors on hand, for sale and applied by application to the agents,
Wm. H. Green & Co.
143 THAMES ST.,
Also for sale, Lead of all the well-known brands of Paints, Oil, Glass, Putty and Varnishes.
A few first quality Diamonds on hand, and to be sold cheap.

THURSDAY, FEBRUARY 4, 1875.

MAKING BUTTER IN WINTER.—Feed your cow well—put the coloring into the cow in the shape of shorts—never feed Indian meal however, unless you desire to dry up the milk and fat her for beef. Give also carrots, beets and turnips if you can raise them profitably. As I farm on less than an acre, this is impossible. If the turnips are fed only just after milking, there is no danger of tainting the milk with disagreeable odors so say old farmers. I have never tried it. Fed with shorts and good hay, our cow gives milk which makes butter not quite as yellow as the cowslip, yet of an agreeable color and delicious taste. When the milk is strained, the pans are placed in the milk room opening out of the kitchen and warmed by it. The temperature rarely rises much over 65 deg., and often will sink to 58 deg., or lower. When it is so cold as to freeze, the pans will be placed in a cupboard with a more even temperature.

Every morning and evening the pans which have stood twenty four hours are placed upon bits of soap-stone lying on the stove, and are heated until the cream which has already risen crinkles somewhat. They are not heated to a boiling temperature, but very nearly. This throws up all the remainder of the cream in the milk, and makes it of a fine color, thick and leathery. Butter churns more ready from cream thus treated, fifteen minutes being sufficient time to bring it in a Blanchard churn, which I always prefer to any other kind, because a child can churn butter in it, and save my strength, and it does work out the butter-milk to a charm; not a drop can remain in the butter if the flaps are only turned a sufficient length of time. Butter made by this process need not be handled excepting to form into butter pats or rolls * * * *

Cleanliness is the one great secret of the making of good butter; unless the housewife pays the strictest attention to little things—which in the aggregate amount to great things she toils in vain and her butter can never be considered prime. Again, the milk-room must be duly aired, and the atmosphere kept sweet. Milk and cream possess a wondrous power of taking to themselves the disagreeable odors about them. The smell of boiling fat will taint milk to my taste. The odors of codfish, kerosene and the like are often absorbed in the milk, and the housewife puzzles her brain to know why her butter does not taste as deliciously as Mrs. Thrifty's, who keeps her milk-room entirely free from all other articles. She would not allow plates of eatables—fried doughnuts, gingersnaps, apples, etc.—to be placed near the milk pans; for she understands that their mingled odors will surely steal the sweetness from her butter pats, and the rich man of the place would instantly detect the change, and refuse to pay the high rates she charges. The secret of good butter is extra care; provided the cows are of good stock and well fed and cared for, that is the only essential required. If Bridget or Dinah will not attend to it, and most likely they cannot do so with judgment, then take the skimming of the milk into your own hands and learn how much more butter, and of what superior quality, brains can produce. Personal attention is surely the chief requisite in dairy matters.—[Daisy Eyebright.

KEEPING ONIONS.—Onions are often injured in Winter by keeping them in too warm a place. They will seldom be injured by frost if kept in the dark, and in tight barrels or boxes, when not subjected to frequent changes of temperature. It is the alternate freezings and thawings that destroy them, and if placed in a position where they will remain frozen all Winter, and then thawed out slowly and in a dark place, no considerable injury would result from this apparently harsh treatment. Onions should always be stored in the coolest part of the cellar, or put in chaff and set in the barn or some out house.

SHAPE FOR FRUIT TREES.—The best shape for fruit trees, according to the opinion of a recent convention of German pomologists, is the pyramidal. This form is preferred on the ground that it gives the minimum of shade, greatest strength, production of better fruit, and fewer disadvantages from storms, weight of snow, excess of fruit, etc.

VEGETINE

Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous system.

VEGETINE

Is not a vile, nauseous compound, which simply purges the bowels, but a safe, pleasant remedy which is sure to purify the blood and thereby restore the health.

VEGETINE

Is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best physicians, owing to its great success in curing all diseases of this nature.

VEGETINE

Does not deceive invalids into false hopes by purging and creating a fictitious appetite, but assists nature in clearing and purifying the whole system, leading the patient gradually to perfect health.

VEGETINE

Was looked upon as an experiment for some time by some of our best physicians, but those most incredulous in regard to its merit are now its most ardent friends and supporters.

VEGETINE

Instead of being a puffed-up medicine has worked its way up to its present astonishing success by actual merit in curing all diseases of the blood, of whatever nature.

VEGETINE

Says a Boston physician, "has no equal as a blood purifier. Hearing of its many wonderful cures, after all other remedies had failed, I visited the laboratory and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are compounded in such a manner as to produce astonishing results."

VEGETINE

Is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

PROOF.

WHAT IS NEEDED.

BOSTON, Feb. 19, 1871.

MR. H. R. STEVENS:

Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefitted by its use. I procured the article and after using several bottles, was restored to health and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.

Respectfully yours,
U. L. PETTENGILL.

Firm of S. M. Pettingill & Co., 10 State St., Boston.

CINCINNATI, Nov. 20, 1872.

MR. H. R. STEVENS:

Dear Sir—The two bottles of VEGETINE furnished me by your agent, my wife has used with great benefit.

For a long time she has been troubled with dizziness and costiveness; these troubles are now entirely removed by the use of VEGETINE.

She was also troubled with Dyspepsia and General Debility; and has been greatly benefited.

THOS. GILMORE, 220½ Walnut Street.

FEEL MYSELF A NEW MAN

NATICK, Mass., June 1st, 1872.

MR. H. R. STEVENS:

Dear Sir—Through the advice and earnest persuasion of Rev. F. S. Best, of this place, I have been taking VEGETINE for Dyspepsia, of which I have suffered for years.

I have used only two bottles and already feel myself a new man. Respectfully,

DR. J. W. CARTER.

Report from a Practical Chemist and Apothecary.

BOSTON, Jan. 1, 1874.

Dear Sir—This is to certify that I have sold at retail 1344½ dozen (1852 bottles) of your VEGETINE since April 12, 1870, and can truly say that it has given the best satisfaction of any remedy for the complaints for which it is recommended, that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am perfectly cognizant of several cases of Scrofulous Tumors being cured by VEGETINE alone in this vicinity. Very respectfully yours,

AT GILMAN, 468 Broadway.

To H. R. STEVENS, Esq. 4w

STATEMENT OF MR. RICHARD STAFFORD.

NEWPORT, Jan. 7, 1875.

W. H. CARPENTER, M. D.—Dear Sir:—Having received great benefit from your treatment of my case of deafness and discharges from my ears, I beg to offer you my sincere and heartfelt thanks, hoping at the same time this correspondence may be of use to you professionally. To the public I would say, (if you decide to put this in print,) that as the result of Scarlet Fever, I was troubled for the whole of twenty years with a filthy, disgusting discharge from both ears, which made me grow deafer and deafer, and caused a polypus to grow in one ear, and I received no relief until I applied to Dr. C., for a remedy. I at once placed myself under his care, and through his skillful treatment I have completely recovered from the unpleasant and deplorable condition I was in. My faith in Dr. C's skill is unbounded as I considered my case about incurable before applying to him.

RICHARD STAFFORD, No. 3 Cross street.

CERTIFICATE OF MR. JOHN CASWELL.

NEWPORT, R. I., Dec. 12, 1874.

TO THE EDITOR OF NEWS:—I wish to recommend Dr. Carpenter's treatment to such of the community as have Scrofula. I inherited it, and it has always run in my blood, and last Fall it became terrible, injuring my health, and attacking my head and face particularly and so disfigured me that a neighbor that met me did not know me until I spoke to him. I applied to Dr. Carpenter, at the Perry House, and his medicines have met with gratifying success. My health is now good, have very little trouble with the humor, face looks natural, and I hope with a little more treatment, to eradicate the poisonous humor from my system entirely. I reside in Middletown.

JOHN CASWELL.

Catarrh and Polypus.

Home Testimony.

NEWPORT, R. I., Nov. 6th, 1874.

This is to proclaim what Dr. Carpenter has done for me. I suffered from Catarrh 40 years, and the last 10 years my nasal passages were filled with Polypus. I employed physicians from time to time, and two years ago, went to Boston, and was doctored there three months, and left off worse than I began, and I was almost discouraged. But I felt that I must do something, for I was obliged to keep my mouth open and my health was becoming impaired. So I went to Fall River last Spring, and placed myself under the care of Dr. Carpenter. His treatment proved highly satisfactory. He removed and cured the Polypus, I can breathe naturally, the Catarrh troubles me very little and altogether I am comfortable and as well as a man 60 years of age, can expect to be, and I hope this testimony may be the means of securing relief to other sufferers. I reside in Middletown.

ASA PECKHAM.

Permanent Cures of Scrofulous Catarrh.

Testimony of a Citizen of Newport.

My son and daughter were sufferers from Scrofulous Catarrh from birth, and with discharges, swellings upon their necks; and an utter inability to breathe through the nose, they were uncomfortable enough, when we placed them under the care of Dr. Carpenter in 1873. His remedies cured them in a few months and they remain well to this day. I publish this with the hope it may be the means of securing relief to others. S. B. BREWSTER,

PERRY HOUSE,
Newport, Nov. 26, 1874.

A CARD FROM

Mr. John Beattie Jr.

(From Fall River News.)

FALL RIVER, Jan. 22, 1874.

W. H. CARPENTER, M. D.,—My Dear Sir:—Allow me thus publicly to express my gratitude for the great benefit conferred upon me by your treatment. I was afflicted for years with Catarrh which had become a constant torment to me, the irritation and inflammation having increased until ulceration was the consequence. Your treatment has been attended with the happiest results. I am now comfortable, my head feels well, and I believe myself cured of that terrible disease. JOHN BEATTIE, Jr.

Mr. Beattie is of the well-known Firm of Wm. & J. Beattie, Jr., Granite Dealers and Contractors, 2 Quarry street.

A CARD FROM WALTER SCOTT, Esq.

EDITOR OF BORDER CITY HERALD, OF FALL RIVER.

I have known Dr. Carpenter since he commenced practice in this city, and I am satisfied that he is a skillful physician and has been successful in the treatment of a great majority of the cases in which he has been consulted. Of my own personal knowledge, I have reason to testify that quite a number of the individuals cured were nearly hopeless in their condition; some, down bed, others deaf, and others laboring under Bronchial and Catarrhal affections, and I have seen the same persons restored under his treatment to their normal state of health. I therefore, knowing these things, without hesitation recommend him to persons suffering from the maladies he has made his special study for years. WALTER SCOTT.

VOICE RESTORED.

TESTIMONY OF MISS GARDNER.

(From Fall River News.)

DR. CARPENTER:—Dear Sir,—My thanks and gratitude are yours. When we consulted you last April, I was miserable indeed; I had lost both my health and my voice, and for two and a half years I could only whisper faintly. I had been doctored so much that we had little faith in the ability of any physician to restore me, but your treatment has performed a cure. I can talk aloud, and my health is good, better than for years. You may publish this if you wish; and as I do not reside in Fall River, I will refer to Mr. Wm. H. Mason, No. 41 North Main street, and Mr. and Mrs. Mason Rounds, No. 64 Durfee street, with whom I resided during treatment. Respectfully yours,

MISS HATTIE GARDNER.

SWANSEA, MASS., Sept. 16, 1874.

Scrofula and St. Vitus Dance Cured.

(From Fall River Herald.)

When we took our daughter Ellen to Dr. Carpenter last May, at the Mount Hope House, she was in a terrible condition from Scrofula and St. Vitus Dance, and was not willing to go among folks, for her limbs jerked and twitched so she had not much control over them, but through Dr. Carpenter's skill she has been restored and is now well. We want this cure known, for some of our acquaintances have taken their children to Europe for treatment, thinking they could not be cured in this country. This case is well known by our neighbors. GEORGE HEAD.

White Block, Border City Mills.

Fall River, Sept. 10, 1874.

Mr. A. D. White's Card.

(From Fall River News.)

FALL RIVER, May 23, 1874.

To my Friends and the Public:

It affords me great satisfaction to be able to testify to the success of Dr. Carpenter in the treatment of my Ears, which were a source of trouble and annoyance to me more than twenty years. Dr. C.'s treatment restored them, and they have been well several months. I have great confidence in Dr. Carpenter's skill and success in practice, and do not hesitate to recommend him. A. D. WHITE,

Firm of Dennis White & Son,
Troy Building, Pleasant St.

Catarrh and Blindness.

(From Fall River News.)

Testimony of Mrs. J. Clomb, of Fall River.

I was diseased with an aggravated form of Catarrh ten years, and in consequence my eyes became affected in December last, and grew worse until I could not go about without being led. Was under the care of several doctors and at the Boston Infirmary, but got no help until I consulted Dr. Carpenter at the Mount Hope House, April 2d. Under his treatment I began to improve immediately, and now I consider myself cured. I think everyone should know there is a physician in Fall River who can cure such diseases. As I am not very well known in this city, I must liberty to refer to W. Scott, Esq., No. 1 Perry street, who saw me when I was in a state of Blindness and since I was cured. MRS. JEREMIAH CLOMB.

REGULATIONS.

1. DEPOSITS will be received as low as one dollar, and when any person's deposits shall amount to five dollars, they will be put upon interest, at such times as are hereafter named; but no fractional parts of a dollar will be received.

2. All sums deposited on the third Monday in January, April, July and October, go immediately on interest. Deposits made after the third Monday in January, April, July and October, will not commence drawing interest until the beginning of the following quarter.

3. A dividend of the income or profits of this institution will be declared payable semi-annually, on the third Mondays of January and July, but no interest will be paid on any sums withdrawn before said dividend.

4. All dividends that are not withdrawn, will be added to the principal, or sum put in, and the depositors will thereby obtain compound interest.

5. The Treasurer is authorized to pay out to the depositors the whole or any part of their deposits or dividends, at any time when called for.

6. The members of the Board of Trustees do not receive any emolument for their services, nor can any money be loaned to either of them.

7. If persons die who have money in the Savings Bank, the money will go to their heirs, or persons to whom they may have given it by will.

HAVE YOU TRIED

JURUBEBA?

ARE YOU

Weak, Nervous, or Debilitated?

Are you so Languid that any exertion requires more of an effort than you feel capable of making?

Then try JURUBEBA, the wonderful tonic and invigorator, which acts so beneficially on the secretive organs as to impart vigor to all the vital forces.

It is no alcoholic appetizer, which stimulates for a short time, only to let the sufferer fall to a lower depth of misery, but it is a vegetable tonic acting directly on the liver and spleen.

It regulates the Bowels, quiets the nerves, and gives such a healthy tone to the whole system as to soon make the invalid feel like a new person.

Its operation is not violent, but is characterized by great gentleness, the patient experiences no sudden change, no marked results, but gradually his troubles

"Fold their tents, like the Arabs,
And silently steal away."

This is no new and untried discovery, but has been long used with wonderful remedial results, and is pronounced by the highest medical authorities, the most powerful tonic and alterative known.

Ask your druggist for it.

For sale by GEO. C. GOODWIN & CO., Boston. jan5-8w

THE HARTFORD

ACCIDENT

Insurance Company.

Cash Capital, $500,000.

R. D. HUBBARD, Pres. GEO. D. LESTER, Sec.

Insures against all forms of bodily injury induced by accidental means: such as dislocations, fractures, broken bones, ruptured tendons, bruises, cuts, stabs, gunshot wounds, crushing or mangling, burns and scalds, bites of mad dogs or serpents, unprovoked assaults by robbers or murderers, stroke of lightning or drowning &c.

The records of the years are filled with such accidents, and no doubt will be, so long as human carelessness exists. We are beset with them, from the cradle to the grave, and there is scarcely an individual refer, within the sphere of his own family or acquaintance, to some accident in which the indemnity offered by this company would have been a blessing worth much more than its cost.

Policies issued for long or short terms providing for weekly payments, in case of disability, and for the payment of the whole sum, in case of death.

The only company in the country that devotes itself wholly to accident insurance. A yearly policy covers accidents while travelling, while about one's business, while in the street, at home or abroad. The premium on each $1,000 is so small that every man able to secure a policy without the slightest embarrassment. For full and complete particulars inquire of L. D. DAVIS, agent for Newport and vicinity. sept20-n&l

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

They are a gentle Purgative as well as a Tonic, possessing the merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the skin, Humor and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Black Hernani.

A FEW PIECES of Black Hernani and Iron Berage just received and for sale at a bargain apr21 WM. C. COZZENS & CO'S

Look at This.

The last ten years have been very disastrous to insurance companies in the United States. More than sixty have failed altogether, and many others have reduced their capital stock or otherwise became greatly weakened. But there are a few that by prudent management and wise liberality on the part of stockholders are much stronger now than ever. Consider the following figures taken from the reports of the Insurance commissioner, of the state of New York, for 1864 and 1874.

ÆTNA of Hartford, Assets in 1864,		$3,330,439, 93
" " "	1874,	5,845,352, 03
Increase of assets in ten years,		2,015,362, 10
INSURANCE of North America, 1864,		$1,716,171, 73
" " "	1874,	3,263,800, 00
Increase of assets in ten years,		1,547,628, 29
ROYAL of Liverpool, (American Funds) Assets in 1864,		$1,827,934, 0
" "	In 1874,	3,073,433, 6
Increase in ten years,		1,245,499, 78
HARTFORD, of Hartford, Assets, 1864,		$1,675,920, 48
" " "	1874,	2,415,681, 51
Increase in ten years,		899,761, 03

This wonderful growth during a term of unparalleled disaster is not the result of good fortune merely, for these companies have been the heaviest losers in Portland, Chicago, Boston and other cities, and have paid out millions of dollars each year. The facts commend themselves to persons who want RELIABLE insurance in these days of trial. A policy in such companies is worth twice as much as one in any of the untried institutions that are springing up on every hand. The rate is the same.

Dwelling houses and their contents insured for five years at very low prices—lower in fact than is charged by many of the Mutuals where the insured is liable to heavy assessments in case of a large fire in any of our larger towns.

Policies written on all classes of property, and losses paid at this agency.
